Uma história curta do protótipo Balsamiq (feita com Balsamiq)

This is how he talked to his boss

I was thinking and perhaps I could be in charge of the next mockups, I am intending to use Balsamiq, I believe I can deliver the mocks dute to august 20th.

How you intend to do it ? Could estimate a deadline?

I have some experience in Illustrator, also sketch but I don´t have access to a macbook here. We don´t have license for Axure so I may try Balsamiq.

Alright then.

This how his boss understood

Finally someone offer to do that!

Intranet

Hey...
I was thinking and perhaps I could be in charge for the next mockups, I am ~~intending to use Balsamiq,~~

How do you intend to do it ? Could estimate a deadline?

~~I have some experience in Illustrator,~~ ~~also sketch but I don't have access~~ Balsamiq. I believe I can deliver the mocks due to august, the 20th.

Alright then.
